

FY26

IMPACT REPORT

Helping Animals and People Live Better Together.

Creating Lasting Change

In FY26, the Humane Society of Northeast Georgia deepened its impact through safety net support. Our outreach provided thousands of free vaccinations, while the Christian David Healthy Pet Clinic offered low-cost wellness and spay/neuter care to keep pets in homes. HSNEGA also expanded food aid and mentored regional shelters, building a community where pets and people live better, together.

Meet Ruger

First adopted in 2020, Ruger was found as a stray in 2025 with heartworms and dog reactivity. But this sweet boy never gave up! Working with our Enrichment Manager, he conquered his training and earned his AKC CGC and Community Canine titles. Now, Ruger is thriving in his forever home!
