

MAKE A FEATHER TOY FOR CAT CONDOS

BEHAVIORAL ENRICHMENT

This toy is secured to the bars of a cat's condo so that the cat can bat at it from inside.

How to Make a Feather Toy:

1. Gather a feather, a hot glue gun and a pipe cleaner.
2. Put hot glue along the bottom half-inch of the feather.
3. Leaving the top half-inch free, wrap the pipe cleaner tightly around the bottom half-inch of the feather where the hot glue is.
4. Bend the top half-inch of the pipe cleaner back and wrap it back around the base of the feather so that the end doesn't stick out.
5. Secure the other end to the cat's condo.
